

Lights, Camera, Action: One-Month Acting Summer School

Join us for an immersive acting experience in the Summer of 2025. Our intimate class of six students will dive deep into the world of on-camera acting and filmmaking.

Week 1: Building Your Acting Foundation

Camera Dynamics

Master the art of blocking and gain confidence in front of the camera.

Filmmaking Roles

Explore screenwriting, directing, and cinematography to understand the entire filmmaking process.

Character Development

Dive into character motivations and backstory creation through guided exercises.

Week 2: Perfecting Your On-Camera Presence

**1**

Script Analysis

Learn to dissect scripts, uncover subtext, and prepare for roles effectively.

2

Collaboration Skills

Work with directors and cinematographers to understand their creative vision.

3

On-Camera Techniques

Master close-ups, emotional consistency, and scene continuity for powerful performances.

Week 3 & 4: From Set to Screen

On-Set Experience

This is the real deal! Students will put into practice what they have learned during the first weeks. With expert guidance and acting on set sessions, they will have the opportunity to act in the short film created during the course. This is a crucial exercise to learn to adapt to dynamic set environments and incorporate feedback.

Post-Production Insights and PhotoShooting

Learn about film editing and how it shapes an actor's performance. Attend guest lectures from industry professionals.

Acting students will have the opportunity to get their professional portfolio pictures taken on the 4th week of the course.

Career Coaching Module

Instructor Amany Kherimy provides essential tools for career advancement in acting. Students engage in practical exercises and receive expert guidance to build a strong foundation for their professional journey.

1

CV and Portfolio Creation

Importance of personal branding, showcasing skills effectively.

2
